

1. Introduction

- 1.1. This document describes the procedure for moving your HUMAC2015 data to a new PC using a USB key.
- 1.2. **IMPORTANT:** This procedure will over-write any existing HUMAC2015 Data on the new PC. If you have existing HUMAC data on the new PC contact CSMi before proceeding.

2. Custom Procedures

- 2.1. If you are upgrading from a previous version of the HUMAC Program, e.g. HUMAC2004, and moving your database to a new computer.
 - 2.1.1. Install the HUMAC2015 on the current computer (you will not need to activate the HUMAC2015 on the old computer).
 - 2.1.2. Upgrade the database to the HUMAC2015 following procedure 300904 "HUMAC2015 Software Installation Instructions".
 - 2.1.3. After the database is upgraded to the HUMAC2015, continue with this procedure to move the database to the new computer.
- 2.2. If you are re-formatting and re-installing the HUMAC on the same PC.
 - 2.2.1. We recommend you install the HUMAC2015 program on a different PC.
 - 2.2.2. Move the data to the new PC and print a report and confirm the curves are displayed to assure the data was moved correctly.
 - 2.2.3. If everything is correct, reformat the original PC disk and restore the data on the original PC.
 - 2.2.4. As an added precaution, you can also do a complete disk backup of the original PC using a commercial backup program before starting this procedure.

3. Procedure

- 3.1. Start the **HUMAC2015** program.
- 3.2. From the **FILE** menu, select the **DATABASE**, **BACKUP** command.
- 3.3. Click the **BROWSE** button.

- 3.4. Place a USB key in the computer.
- 3.5. Select the **USB DRIVE**.
- 3.6. Click the **OPEN** button.
